

Care & Cleaning Tips

With proper care and cleaning of your Rainier Bonded Windows, formerly known as the Barrett Bonded Window™, you will have the benefits of glass-like clarity and safety for many years to come.

Here are a few tips to keep your windows like new:

- **Rinse** the windows to remove loose dirt, dust, or saltwater. During this process, pay special attention to the window substrate and use plenty of water. While it helps if the water is lukewarm, that is not usually an option on the dock. Tap water is fine, just spray and rinse well.
- With a **soft cloth** soaked in water and soap, wash the windows with a gentle **side-to-side action**, which will keep any micro-scratches in line with your eye's view-line. We recommend using diluted Joy dishwashing soap.
- **Rinse** well, flush the windows as best you can. Do not leave soap residue on the windows.
- If possible **dry** with a very soft polishing cloth to prevent water spotting.
- Polish with Novus Plastic Polish #1 or Mequiar's #10

Cautions:

1. Wash and dry using a *sideways motion* using a soft cloth:

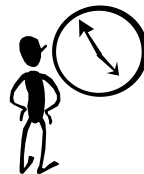

2. High or direct sunlight will dry the *window too quickly*, it is always best to wipe a wet surface dry. Rinse and wipe with a soft cloth.

Follow these instructions to ensure your Rainier Windows retain their "like new" condition and to meet the warranty requirements.

3. Do *not* leave cleaner or its residue on the window – rinse well with fresh water. For the glass, Joy dishwasher soap is a perfect cleaning solution; however we also recommend Mermaids Plastic Cleaner and Top Job.

Do not use cleaners such as Clorox or Crystal Clear Boat Soap on the windows. Long-term exposure may be harmful to the fabric, the thread, and the glass coating.

4. Do *not* use brushes, paper towels, scrapers, or squeegees when cleaning the window – only use a soft cloth, like an old cotton T-Shirt diaper or 3m micro-fiber cloth. Use of squeegees will void the warranty.

Compatible "Glass" Cleaning Agents

- Mermaids Plastic Cleaner
- Mild Detergent
- Liquid Joy – non fragrant
- Top Job

Compatible "Fabric" Cleaning Agents

- Dreft
- Ivory Snow
- Woolite
- Liquid Joy – non fragrant

Compatible "Glass" Polishing Agents

- Novus Plastic Polish #1
- Mequiar's #10
- Johnson's paste wax (Do not let the wax spread onto the fabric)
*Note: You can use Mequiar's #10 or Johnson's paste wax to minimize the visual impact of minor scratches.

Hydrophobic Materials (rain shield)

- Rain Magic www.rainmagic.com

Thank you for purchasing Rainier Windows.....*Clearly Better.*
